*Re: Call for Application*

Dear colleague:

The **International Graduate Program Medical Neurosciences** at Charité –Universitätsmedizin Berlin is an interdisciplinary graduate program entirely taught in English, which leads to the degrees of MSc, PhD or MD/PhD.

Established back in 2002, it attracts students from around the world. Currently we have about 80 Master and doctoral students enrolled. The selection process is highly competitive.

We are now recruiting students for our 2017 intake. **The application deadline is the 15<sup>th</sup> January.**

We therefore kindly ask for your support. **Please post the enclosed posters at prominent places within your institution and make the flyers available where appropriate.**

We thank you in advance for your support. Of course, we would be delighted to return this favour at some point.

Best regards,

Lutz Steiner  
Head of Program Office
